EXTEND THE LIFE OF YOUR HEADER

★ MADE IN THE USA ★

Bish-Built Drive Package Kits

The Solution to Adding Field Tracker to Case IH Headers

- Highest Quality Drive Package Kits on the Market. Nothing Beats it, Better than OEM.
- We Keep All Parts In Stock. Drive Package Kits, Telescoping Power Shafts, Bearings, etc.
- Safest Drive Package Kit Available. Complete with Redundant Telescoping Power Shaft Guards.
- Simple Install with Easy to Read Instructions.
- Don't Waste Your Time and Money with Other Kits.

DURABLE AND EASY TO INSTALL

Available for:

- 800 Series Headers
- 900 Series Headers
- 1000 Series Headers

★ MADE IN THE USA ★

Bish-Built Custom Headers

Fabrication Solution To Fit Your Needs

We Offer a Variety of:

- Row Crop Headers
- Corn Headers
- Draper Headers
- Lifted Headers
- Platform Headers
- Pickup Headers
- ...and more

AVAILABLE IN:
3 - 18+ ROWS
20" - 40" SPACING

Bish-Built Custom Headers

Custom 25’ Draper Head for Wild Rice Harvest

The World’s Largest Folding Corn Head 27-Row 20”

SuperCrop® Row-Crop Header

Replacement Poly Parts

Corn Shields
For Case IH Poly Head (Pair)
108-83178

Ear Saver
For Case IH corn heads
108-84400

Polytin Advantages:

- Less Cost
- Needs No Paint
- Will Stand Abuse
- Replaces OEM Parts
- Less Crop Sticking
- Less Weight

Rear Wear Kit
Case IH 2200-3400 series corn heads
108-83759

Auger Trough Liners
For Case IH corn heads 4-16 Row

Auger Trough Liner
For Case IH 20'-35' grain heads
108-SH2205

Stalk Stompers
Case IH corn heads 4-18 Row

Poly Snout Saver
For Case IH corn heads
108-80837

Poly Snout Patch
Available in Red or White
108-41497 and 108-40998

Crop Divider
Crop Divider with Marking Rod for Case IH 1020
108-83843

- Augers
- Complete Row Units
- Cornhead Deck Plates
- Feederhouse Floors
- Hydraulic Deck Plate Kits
- Row Unit Frames
- Stalk Rolls
- And More!

Combine Corn Saver
For All Models of Combines
108-82722

Replacement Poly Options

Available Poly Options Include:

Case IH 800-1000 Series*

- 4 Row 20", 22", and 30" — Jack Knife**
- 6 Row 20", 22", and 30" — Jack Knife

- 12 Row 20", 22", and 30" — Jack Knife
- Center 20", 22", 30", 36", and 38" — Jack Knife
- Left End 20", 22", 30", 36", and 38" — Jack Knife
- Right End 20", 22", 30", 36", and 38" — Jack Knife

Case IH 2200-3400 Series***

- 30" Center Assembly—Jack Knife
- Front Poly Assembly
- Back Poly Assembly

ADDITIONAL CUSTOM OPTIONS AVAILABLE!

*RIGID DESIGN: Tip down for easy access. Single pivot point allows snout to lift for easy access for maintenance. These Poly Snouts can be used as a replacement for existing steel inner and outer snouts for all makes of corn heads. This gives you the flexibility of replacing one individual row unit in your existing poly head. Your cost savings adds up if you choose to order a full set of poly snouts.

**JACK KNIFE DESIGN: Complete OEM Replacement with jack knife design. Double pivot points allow the points to fold up, in and down for easy access and maintenance and uses less storage space.

*** Case IH 2200-3400 Series are sold as individual center snouts only.

Header Adapters

CASE IH® ➡ JOHN DEERE®

- Faceplate
- Cut & Weld

JOHN DEERE® ➡ CASE IH®

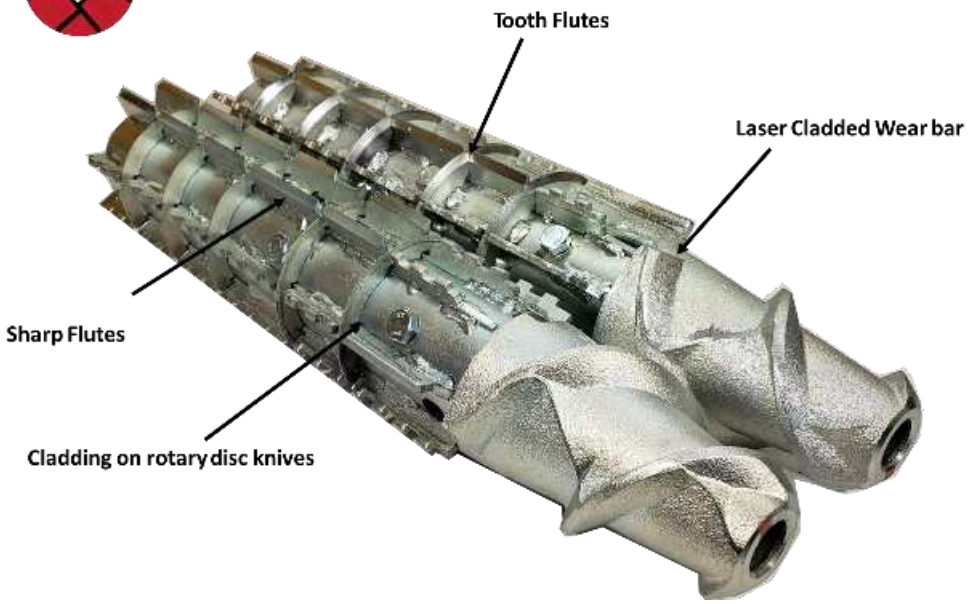

The Largest Combine Header Adapter Selection in the world!

Run your New Holland® or Case IH® Corn Head on a John Deere® Combine

Electrical and Hydraulic Solutions Available!

Shred Select™

Why Shred Select?

- Patented Differential Speeds
- Patented Rotary Style Knives
- Enhanced Front Entry
- Laser Cladded Front End for Long Wear Life
- Power and Fuel Efficient

Bushel Plus Mad Concaves

Improve Grain Quality & Reduce Loss with O-Grate Concaves

The Bushel Plus O-Grate MAD Concaves use an open design that enhances grain-on-grain threshing, delivering cleaner samples with fewer cracks and improved separation in soybeans, corn, and milo. The increased airflow and reduced restriction help your combine run cooler and more efficiently—especially in high-moisture or green crops where traditional concaves plug or slow down.

- Cleaner samples with fewer cracks
- Lower rotor loss across multiple crops
- Reduced plugging in tough, green conditions
- Better airflow and improved fuel efficiency

Bushel Plus
The Harvest Optimization Company

Bean saver for Case IH® & New Holland® auger heads

Flag Pole Kit for CNH® Combines with 14" Unloading Auger Tube

Tow cable kit for Case IH® tractors

Headsight

Horizon® Features:

- New Automatic Calibration with Feedback
- PinPoint® Diagnostics
- Foresight®
- Truesight®

Benefits of Header Height Control

- Increased Yields
- Reduces Down Time
- Decreases Fatigue
- Maximized Efficiency
- 3-Year Parts Warranty
- Sensors Independently Control Height

Advanced Header & Steering Automation for More Accurate Harvesting

- **Precision Height & Steering Control in Challenging Conditions** - maintain cut quality and header control through uneven terrain, down crops, and low visibility.
- **Automatically Stays Centered on the Row** - reduces misalignment, improves feeding, and ensures cleaner operation.
- **Dual-Row Sensing for Faster Response** - advanced sensors improve accuracy compared to single-row systems.
- **Proven Reduction in Header Loss** - testing shows

Lankota GENERATION II Stalk Stomper® Mounting Kit for CaseIH® 20" 4412 Series Corn Heads

Stalk Rollers for Case IH® Magnum™ tractors

Corn Stalk Roller

The Corn Stalk Roller, proudly serving the Midwest, is the solution you've been searching for. This innovative agricultural tool is designed to flatten, crush, and crimp corn stalks left behind after harvest, setting the stage for improved springtime planting. Our roller can be easily mounted on your corn head for efficiency.

- **Patent pending innovation:** engineered for performance with a unique, patent-pending design
- **No-till planting ready:** prepares fields for planting without disturbing the soil's natural structure—perfect for no-till systems.
- **Protects your Equipment:** reduces tire damage and wear caused by tough crop residue
- **Accelerates stalk breakdown:** speeds up decomposition of last season's residue, promoting healthier, nutrient-rich soil
- **Releases locked-in nutrients:** helps unlock valuable nutrients trapped in crop residue for better soil fertility
- **Cuts costs:** potentially eliminates a tillage pass—saving up to $22 per acre (according to Iowa State University custom rate guide)
- **Improves spring field conditions:** enhances drying time, allowing earlier and more efficient planting
- **Adaptive row rollers:** individual rollers adjust to row contours for consistent, effective residue management across the field
- **Fuel Savings:** Uses only 3.5–4 gallons per acre in no -till operations, helping reduce fuel costs and improve efficiency.

Maximize Your Field's Potential with Advanced Stalk Management.

The Corn Stalk Roller is engineered with your needs in mind. It uses spring-loaded downward pressure to effectively manage corn stalks, ensuring optimal field preparation for the next planting season.

The benefits of our roller extend beyond just stalk management:

- Solid steel construction for durability
- Sealed bearings for longevity
- Made in the USA
- Ideal for corn-to-bean and no-till practices
- Replacement parts available

Custom mounting options for various corn heads

Telescoping Power Shafts

We Stock Over 75 Combinations of 14, 35, & 44 Series Power Shafts and Replacement

Weasler®

WE OFFER TELESCOPING SHAFTS IN A WIDE RANGE OF LENGTHS FROM 18" TO 72".
