CUSTOM HEADERS

Fabrication Solutions to Fit Your Needs

Product Overview

At Bish Enterprises, **"if you can imagine it, we can build it."** Our Custom Headers division leverages decades of precision fabrication and adapter-engineering to design, prototype, and deliver any header configuration—no challenge too big or niche. From commercial scale to research trials, we craft bespoke row-crop, corn, draper, pickup, platform, lifted, and specialty headers in **virtually any row count** (1 row up to as many rows as your combine can lift and feed), from **rigid to folding frames**, with custom spacing to suit your crop.

We design for any combine make or model, including: AGCO® Series, Challenger®, Case IH®, Claas®/Lexion®, Fendt®, Gleaner®, John Deere®, Massey®, New Holland®, Oliver®, Oxbo®, Versatile®, White®, Wintersteiger®, Zurn®, and more.

Product Overview

Fabrication solutions to fit your needs.

WE OFFER VARIETY OF HEADERS:

- Row Crop Headers
- Corn Headers
- Draper Headers
- Lifted Headers
- Platform Headers
- Pickup Headers
- ...and more

AVAILABLE IN:

- Virtually any row count & spacing

Competitive Advantages

Feature	Bish Custom Headers	Traditional OEM	Small-Shop Builders
Configuration Flexibility	Virtually any row count & spacing	Pre-defined models only	Limited options
Turnaround Time	90 – 365 days	6 – 18 months	9 – 18 months
Quality & Consistency	ISO-style QA, CAD—CNC repeat	Plant-varies	Craft-only methods
Engineering Support	Full CAD, FEA, field testing	Minimal custom design	No formal R&D
Warranty & Service	1 yr comprehensive warranty	6–12 mo OEM terms	Varies

DOUBLE SWATH EFFICIENCY. Double Swath Pickup Header

Multi-Crop Capability

Virtually any harvestable crop

- Canola
- Corn
- Dry edible beans
- Hemp
- Millet
- Popcorn
- Research plots
- Sorghum
- Sunflowers
- Turf grasses (Bahiagrass; Bermudagrass; Buffalograss; Centipede grass; Fine Fescue; Kentucky Bluegrass; Perennial Ryegrass; St. Augustine Grass; Tall Fescue; White clover; Zoysia grass)
- Wild rice
- Wheat

12-Row 38” Corn Heads

7-Row 38” Corn Head

12-Row 40” Corn Head

27-Row 20” Folding Corn Head

Research Headers

Bish Enterprises builds **Research Headers** tailored for agronomic trials, university studies, and OEM test programs. Leveraging our custom-header expertise and adapter legacy, we deliver low-volume, high-precision headers with modular configurations—scaled from **1 row up to as many rows as your research rig or combine can support**, and virtually any row spacing.

We support **any combine make or model**, including research platforms such as Almaco®, Kincaid®, Oxbo®, Wintersteiger®, Zurn®, and standard brands (AGCO® Series, Case IH®, Claas®/Lexion®, Challenger®, Fendt®, Gleaner®, John Deere®, Massey®, New Holland®, Oliver®, White®, Versatile®).

WE FABRICATE:

- Corn Research Headers
- Draper Research Headers
- Draper / Auger Combination Headers
- Pickup Research Headers
- Platform Research Headers
- Row Crop / All Crop Headers
- Split Feed Headers (dual left/right feeding for split feederhouse combines)
- Stripper Headers

Competitive Advantages

Feature	Bish Research Headers	Internal University Builds	Small-Shop Prototypes
Data-Ready Integration	Pre-mounted sensor & wiring points	Field-drilled post-build	Ad-hoc fixture mounting
Volume Flexibility	1–10+ units with full QA	Single unit	Single unit
Engineering Rigor	CAD & FEA validation	Basic CAD	Manual calculations
Support & Iteration	Multi-year test agreements available	Limited post-build tweaks	No formal support contracts
Warranty	One-year on all components	No formal warranty	Varies by builder

Header Frame Kits

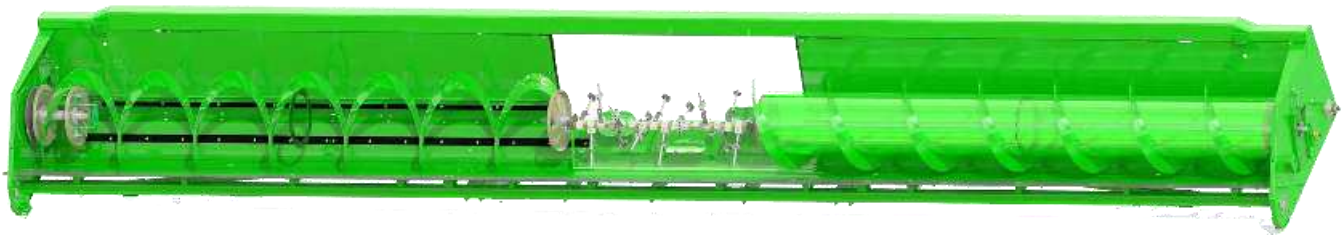

With nearly 50 years of manufacturing excellence, Bish Enterprises is the trusted source for header frame kits that lead the industry in structural strength, flexibility, and customizability. Whether you're rebuilding a damaged header, expanding your row width, or adapting row units to new configurations, we build the most complete kits on the market — tailored to your needs.

Compatible with More Manufacturers than Any Competitor
We build custom frame kits for virtually all major combine and header brands:
John Deere® – A-Series, x40, x90, 6xx, 7xx, Cxx
Case IH® / New Holland® – 10xx, 22xx, 24xx, 32xx, 34xx, 42xx, 44xx, Hybrid (1000 row units to 2200-style frame)
AGCO® Series, Challenger®, Claas® / Lexion®, Fendt®, Gleaner®, Massey®, Oliver®, Oxbo®, Versatile®, White®, Wintersteiger®, Zurn®
...and others upon request.

Versatile Configurations for Any Operation
Row Count Options: From 1 to 27+ rows
Row Spacing: Customizable from 20" to 40" or as needed
Scalable Design: Transfer row units between frames to scale up, scale down, or adapt to new crops
Damage Recovery: Replace factory frames after collisions or wear

Built Stronger Than OEM
Fabricated to **outperform OEM frames** in strength and durability
Components include:

- **Heavier-than-OEM floors**
- Reinforced backs
- Durable strippers

JOHN DEERE® FRAME KIT

Header Frame Kits

Ideal for full header builds, re-builds, and performance upgrades

Advanced Auger Options

Auger diameters and configurations to fit any crop flow
Options include:

- **Center auger fingers**
- **Full-width fingered augers**
- **Metal or composite finger types**

Supplied with:

- Pre-installed **sprockets and slip clutches**
- **All auger mounting hardware**

Feature-Rich & Field-Ready

Header Height Control (pre-wired for AHHC)
Headsight® height control compatibility
Supports **Contour-Master™, Field Tracker®,** and **Level-Land** feederhouses
Telescoping and fixed power shafts available
Optional **stubble and turn signal lighting**
Row unit shafts available for complete buildout

Color & Finish Options

Choose **John Deere Green**, **Case IH Red**, or any **custom color**
Available in **painted** or **powder-coated finishes**

Reliable. Proven. Guaranteed.

Every Bish Enterprises frame kit is backed by a **2-Year Warranty** — because your uptime is our priority.

CASE IH® FRAME KIT
